Medical Marijuana Registry Sample Cards and Process Overview As of November 17, 2014

Procedure changes to reflect Board of Health regulations

The Board of Health approved several regulation changes at its rulemaking hearing on Sept. 16, 2014. Updated Board of Health regulations are available on the Secretary of State's website.

- **Medical marijuana cultivation:** All forms have been updated to reflect changes in Board of Health regulations. Effective Nov. 1, 2014, all forms now capture the medical marijuana cultivation method selected by the patient. This includes options of self, caregiver, medical marijuana center, self & caregiver, self & medical marijuana center. Patients may not have both a caregiver and a medical marijuana center growing their medical marijuana.
- **Medical marijuana center designations:** Board of Health regulation 5 CCR 1006-2(2)(A)(2)(b) states, "If a medical marijuana center is selected on the application, the patient's record will reflect the patient has designated a medical marijuana center to grow his/her marijuana. Specific medical marijuana center information will not be reflected on the registration card nor in the patient record." We are no longer processing requests to change the medical marijuana center listed in the patient's record. There is no place on the new forms to identify a specific medical marijuana center as the designated primary center. Medical marijuana centers must still report patient lists to the Department of Revenue's Marijuana Enforcement Division.
- **Proof of identity and residency requirements:** Effective Nov. 1, 2014, a Colorado driver's license or photo ID is required as proof of identity and residency for all forms. Patients who cannot provide one of these documents must submit a proof of identity and residency waiver. Forms with proof of identity and residency waivers may require additional time for review and verification.

Card Overview

On Sept. 15, 2014, the Registry began issuing medical marijuana registration cards in a more durable, credit-card-sized format. Over the course of the next year, you may see marijuana registration cards in both the current 'red card' format and the new design.

Cards issued on or before Sept. 14, 2014 will be on the old 'red card' format. These cards may be valid through Sept. 14, 2015. The following is a reduced sample.

The image shows a sample Medical Marijuana Registry Card from the State of Colorado. The card is pink and white with a decorative border. It contains fields for Patient and Provider information, including Date of Birth, Name, Address, and SSN. A large 'VOID' watermark is visible across the center. A barcode is located at the bottom center. The card also includes a warning about duplication and a note about the patient's certification.

Patient		Medical Marijuana Registry		Provider	
Date of Birth	01/01/1934	Issue Date	10/23/2014	Date of Birth	04/01/1940
Name	DONALD D DUCK	Expiration Date	10/23/2015	Name	MICKEY M MOUSE
Address	123 ANYWHERE ST DENVERVILLE CO 80808			Address	123 ANYWHERE ST DENVERVILLE CO 80808
SSN	XXX-XX-9995				
Tax Exempt	Homebound				

WARNING: IT IS ILLEGAL TO DUPLICATE THIS CARD. VOID IF LAMINATED.

The above named patient is certified to the Department of Public Health and Environment as a person who has a debilitating medical condition that the patient may address with the medical use of marijuana. Any changes in the above information should be reported to the Medical Marijuana Program, Colorado Department of Public Health and Environment, HSYR-ADM-A1, 4300 Cherry Creek Drive South, Denver, Colorado 80246-1530.

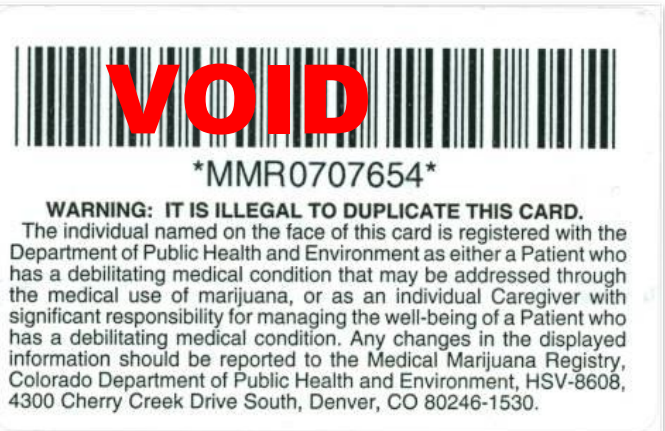

VALID ONLY IN COLORADO

ANY ALTERATION OR ERASURE VOIDS THIS CERTIFICATE

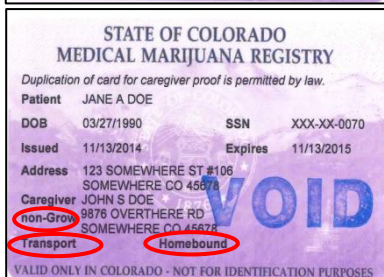

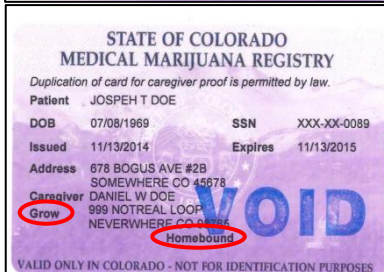

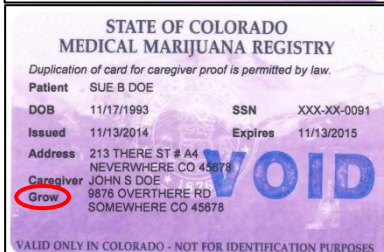

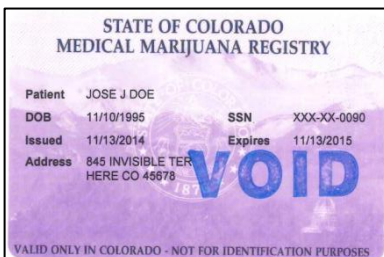

Caregivers may purchase and transport marijuana products to their patients if the caregiver is listed on the card; and the patient is listed as homebound or the patient is under the age of 18 as established by the date of birth.

Sample Card (approximate size): New cards printed from Sept. 15 to Nov. 16 do not reflect transportation waivers or cultivation status described below, as they were printed prior to the Board of Health rulemaking. This sample reflects layout prior to regulation changes effective Nov. 17, 2014.

Sample Card

Cultivation and Transportation Rights:

Plant count may not exceed total recommendation on the physician certification. If the plant count exceeds the standard of six plants and two ounces, the patient and/or caregiver must also have a copy of the physician certification.

Adult patient self-growing or using a medical marijuana center

- Center information is no longer listed on patient cards.
- In this scenario, only the patient may purchase and transport marijuana from medical marijuana centers.

Adult patient with a caregiver

- Patients may have either a caregiver or a medical marijuana center grow for them, not both.
- Growing under the caregiver title indicates the caregiver is growing for the patient.
- This is not a homebound patient, so the caregiver cannot transport medical marijuana for the patient. Thus the word 'transport' does not appear on the card.

Homebound adult patient with a growing caregiver

- Homebound patients may not have both a caregiver and a medical marijuana center grow for them.
- Growing under the caregiver title indicates the caregiver is growing the medical marijuana for the patient.
- Caregiver may not purchase or transport marijuana product from a medical marijuana center for the patient. Thus the word 'transport' does not appear on the card.

Homebound adult patient with a non-growing caregiver and medical marijuana center

- Homebound patients may have a non-growing caregiver and still designate a medical marijuana center to grow their marijuana.
- Non-growing under the caregiver title indicates the caregiver is not growing medical marijuana for the patient.
- Transportation on the bottom row indicates the caregiver may transport product from a medical marijuana center to the patient.

Minor patient cards (sample not currently available):

- Minor patients (under the age 18) are identified by their date of birth.
- The primary caregiver on the patient card must be the legal parent or guardian.
- Parents may transport medical marijuana from a medical marijuana center to the patient. The word 'transport' does not appear on minor cards, as this is not an independent caregiver transportation waiver.
